Create a New Product Group

Product Groups are created to simplify your ordering process. They can be named based on content, department, Purchasing agent, etc.

There is no limit on the number of items you can have in your product group. If you have 100 items you want in one group, no problem.

If you would like us to set this up for you, simply contact your sales rep.

Alternate Ordering Options

The Reorder Pad is a list of items you have bought from us in a given year and allows ease for you to reorder your regular items.

Manual order allows you to enter the part numbers and quantity of the item(s) you are wanting to order, without having to pull each one up individually.

The Copy & Paste feature allows you to copy the part number(s) from an excel file or word document into the web browser to be added to your order.

With File Upload , if you have a comma delimited file with a list of part numbers you order; you can upload that file to our website and it will search it for you and give you a list of matches it found. Any items with an exact match will automatically be added to your cart. Items with multiple matches found will give you a list to choose from. If no results are found you will have an option to run the search again.

Product Pages

Our product pages offer you an image and brief product description.

We have added Technical Specifications, MSDS Sheets & Certificates of Analysis to assist you in your product choice.

Our team is always working on our website in the background to make it easy and user friendly for you. Images and Technical information is added to our website daily, though not all of the items we offer have this information available, we are working diligently to get it there.
