FREE Chlorine Colorimeter with TB350 Purchase

Limited Time Offer!

Update your Water Quality Instrumentation!

For a limited time, Lovibond is offering a FREE Chlorine Colorimeter with the purchase of our TB350 Portable Turbidimeter. Don't miss this opportunity to upgrade your instrumentation for the most commonly tested water quality parameters. The latest in turbidity technology coupled with ongoing Chlorine reagent savings is waiting for you.

- The TB350 Portable Turbidimeter delivers the most reliable measurements for low range to high range samples, without sacrificing accuracy.
- In addition to a FREE Chlorine Colorimeter, save on your ongoing Chlorine reagent costs with our easy-to-use Powder Pack reagents.

Update your instrumentation for the most tested water quality parameters – for the price of one!

Chlorine and Turbidity go hand-in-hand

At Lovibond, we look out for the little things that make a big difference in simplifying water analysis. Because Chlorine and Turbidity are often tested together, we're offering you a FREE Chlorine Colorimeter with purchase of a TB350 Portable Turbidimeter. These instruments are ideal for field testing.

- **Prevent Measurement Errors:** The TB350, includes features and tools to prevent common turbidity measurement mistakes and encourage best practices to ensure the best results. The instrument is available in two different light sources, White Light (LED) or Infrared Light (LED).
- **Everything you need to test:** You'll find our rugged MD100 has a large, easy-to-read display and is pre-programmed with two testing ranges for testing Free, Total and Combined Chlorine, supplied with everything you need to conduct your testing.
